

Pathfinder Policy

1. Conference wide events which involve school days would be treated like overnight field trips. The conference Pathfinder director would be responsible for informing the education office so that the event could be placed on the conference school calendar.
2. If at least 75% of the students in a school are going to be absent, the school could close and it would be counted as a field trip for everyone (no absence recorded for anyone).
3. If less than 75% of the students are going to be absent then classes should be held for those who are present and those who are absent should make up missing work as deemed appropriate by the teacher.
4. If the campout is being offered by the local club, they should submit to the local school board, a request to be out of school. Those students who are absent for these events would be expected to make up missed work and would be given an excused absence.
